I sporting about which continued tite seen set \_ in the Evening the land being only a few miles distant . Damp . with fog well L'. Which made it cool altho dang arous to leep out in-. day 3 Saw on the Starboard bow very high land in the distance and about noon came in vight of Batta rock - a noted place about to miles (I should support ) from if maindand ( Tima ) opposit to which is Sooteranina. formuly a Portugues settlement but now may having a King & Lush !!! the latter being of calebrated rifle whor. This King is suppossed to be rich - at noon the head as usual was very Spherson there being no breezes - and queto becalmed. The time Jow the high dand of luster hi the distance: This morning from the breeze perhaning in the hight the righted the the the Ingring percent the the proposets to Cusher in the Ingrining percent on the opposite vide the islands of tempty & Panta - the Cufts about 'p part 10. a 11. lower'd his to as to go on show and punchase prigs & fowls. In the Ship - which he brot on board a bout. I having the alsty 2 Dies day 4 ford I onder com & ourons : pigs fat 2. & 3 doleans Lach - Curke laying about on 6 miles from us is greatly hed by locar nulfree but it lays close to the begch - lower Cushes consisting of a trul To hut town down the high Land exhibit; a beautiful rugged I mountainous appearance, and is fringed on their Ulemines with Trees & shrubs - oce the part facing the sea - exhibiting a volcanic appearance - the nations lighting fires on the male high to be dand . While some vay the hatives wak by high only the heat of the day being to preal as to prevent them the woods . consisting principally of local hat & Sandalwood. The latter of which is sold fait, perfume. principale to the Chinen and is support to clear houses. of y morgaite & cock roach. The mountains yearn to have evering then a pravel a shough vermelan to the beach. The wary The Current stite strong dufted us to leward, yet could fur cein in the distance the high land of Custice - made up by a light breeze to the old . Thot - Toppost lushes upper Jour near thy mountains were we were again becalmed. the In sticking like an oven to us. the sea smooth as glafs - yet the Current Thong. about 1/2 part. 3 Whales percaived a head and at 4. one was seen on the weather bors by myself about I much from the boy when the 2 bouts lowered of thief & 300 males ) and got along side when the harpooneer of 1: Book . Strock but the Jag did not hold con requently thywhale got off boats stite on they look out to to den show they retwined unsuccessful - in the Evening a sould bruge . I pring up : but nothing of any a count to fage the ship

October The locather Stite continues manifestibly het, on getting aport the Friday . 6 this morning we had. Outen so muce! to lesward, as a a an lo come hi sight of Walla rock . and al noon has prefled of port to it has some little shead. This day completes the period of In on 1/1 gos our Jailing from-London - and having 20. Barrelles of oil - may, God make the next a months, propertions for a speedy retiren has ho whales in sight - at. high! came who to the usual place - apple. set lusher - but. only about . 2 miles from shore - we can we have mense numbers of abcoa mut trees: . Saturday 7. The weather extremely hot. There being no breeze to meligate the head gluning the day - diether down again to patta ase to It, to which for found oundoes at moon - a light brigge bod to Springing up. We made vonce bettle distance dung the after for of the day & came alongside of Cushee - the current houseon the strong. Shifting sails to cutch wery light breeze so as to ma Sunday. 8 weather the same nothing occurring of any particular house again differ some little distance from his her about part Shoult cired from the mast tead - al about 3 lowered the 4 Boats a about /2 part. 5 ceptured I large Bull whale . The 2nd prate got is chave of 2 lays one going to windward offort & Batagay Ba the wind having freshed up so as to bring us up withen 6 miles of it cluming the morning - perceived about 11.1. morning. The Ale cated the Jackasies head his a line with 30 Bar. The whale seeing the Houses .- so that the Whales run is to I about Survel. The whole came along vide being town it Boots . 1: hate. I afterward the capting with the 3? hate Hake rope and secured it for the highe -Monday. 9. cutting in the Whale - vaw. planty of sharks - of 3 sorts oir should were bottle norid & tiger the latter of which is the lyngey! being a tame no soge ale of the 2 sorts were accompanied by the filst fish a form huple and mark's like a macarel. 2. to each - and while in a them attack the whole and were out of water the filer fish atta of herry ! only more flexible - Swend of This were digered way. by the short space; but such was their occasity that with faping wounds. They would return to gorge again - at now negrely all the blubbe and into y Blubber room after denner the try walks going - and commenced methy and al. 11 odes high whele I reading in the Cubin heard a Spoul: looked out it the whidow & heard them for several minutes they were and close alongside of the Ship. Susday . 10 al. I o clock this morning hailed a Ship a head ofer is a to Timer Coping. The appears by the darkness to be about Loos on to den and surid to be manned by Las (vis the Strang's whith & head frequently. Juish'd about noon boiling the Blubber got Whale and froduced only to form out about go Barrelles . the week hisufficially hot - and during the course of the bright of morning in again drifted to our old spot. Cushee being almost breaking - new only since the pressions day got a few mules a head of it - Saw atom 4 o clock sparts of spring whales 3 miles a head - at about the sport of spring much ahead being about 6 miles promes sports but were going much ahead being about 6 miles promes the oil from the Whale last Killia produced 1-300 Cark of the sil and. 2: 300. G. of Spermoil - each of the Eask's holding 9/2 Barreles - and some over. Vo as to produce no the Han 30 Barrely.

Colober 1937 Remar Ka bly het. The thermometer stand at 97 at 10 mig Midner day 11 again towards lus hee or lussy but a light breeze springing up at 9. We were able to come up. to Batagoda I on Batagay Bay as I have work heavely written it ), about 12 oclock . - at 2 came greatly alongwide of further Baba or luta baba . and on touting this the glass, perceived the Portugues flag flying from a val of fort a town. al I shouts seen and about 1/2. part I a 4-3 Boats were lowered 1 st 2. 8 3 hats - and about wa hour after all fact to Sperm Shales - 2? mate . Kilin 2. & g' 3 who 1. Chief mate loosing his the Whale biting his line of the Capture Boal was lower'd about it oclock and returned at Inn och the I boats having What in tow after dank, put light to the vior of thef that they mught see & Jan in the distance the 3 lights of the Boats. - They were captured towards the island of Ombaye (a kompy as have previously wenter & and Point De la, Bar. Sung the narrowest. part of the Channel a Thank of Timor he there boats returned to the Ship about 1/2 part o'o clock. Huke 3. Danieles. 3. Az them. and at 11 had dupper. In the Evening we were in the Bight we Cusher Baba and the brevze . Being very light were not ath to make Munday 12 Rose - al. day break . to see - the Whales cut in which was down by Ispart. I or go alock . being then opposite a buy a bight near to in Sout deban as the sun bowever none. The morning got very Lot. The supartion of the Rays. of the sun from the water on the thirty sede merce sing it. - saw. Innumerable number of Sharks. with the tilor fishes they are as I said about the voge of a herring and having a better offen tunity of noticing them furgious the dark marks that there as they swim go round, The Body thus IIIII and the becauteful transparent furfile give there a splendid appearance as they glide before their companion . - the Chief mate captured a Shark . a young tiger aupol. ted one for the skin which is made a sumular use of as Emery paper for polishing a smoothing bone. a remova or sucking from evas found attached to one of the Whales and there was some difficulty of getting is of a somewhat oval for . The vama being places on each lateral Black skin: (Whale) got the whales cut up & the heads baled. by 5. and got the Try works going humediately after in three seem to. be plent of Whales in the Sharty of the Capter seine determined to onen about them as such is the can - about . 9 oclock this Evening while we were conversing on the Bulevarks of the the & watching the Try works we pucked a light on the Marboard beam distant about I, mile It - & thought it was a whaler trying out as we were - we watched it for about on how. It appearing every now of then which hed . is to the conclusion of its being a whale Land our standing with the manie! aback about their distance from ombays - that lapling or his glass & on Non- chain wood a Land. On going upon Ik this morning perceived we had drefted from Ohebays man to the old shot of Cushing - swang on our starts and quarting the high Land of that Town. The weather the continuing hor. Thermome the slanding at 94. at So clock-at about 1/2 hard & finished booking out the Bhitten when it is supposed that the 3 whale, with geor old about 38 a 39 Barreles. wash'd of the DKs - in balings the last bask a 300. Then happened to be a letter water at the bottom of the lask & when it was youl Tiles with boiling out the degace of head was so great that it forced the oil out completely in a white foam it was no doubt coursed by the expansion of the water in the form of tran that produced it - This day as I when for the 1? Fine to the made & got as for as the main Top: remained there tile 4. but saw no whales - the Evening was very fine I cool - al. /2 hard II a 12 Jaw. a Jail in sight a right a head of us dail in the direction of his hu. & continued so sight - early in the follows has This day was also the Capter Buth day - an Eclipse of the thoon also by

October 1837 Las. Long. This morning we had, dutted again in sight of the mountains Susher. The turrent being so thong - and during the day the breity Saturday 14 To light at to make it almost a calm - however doining the day we managed so for as to get nearly to Batagoda, at noon his fet in with Just almost of way description viz - porposes, Dolphans of los Which was about a mile on the staitoard quarter spouting away. the Dolphins were in large quantities - and having seen the dere the given in Drawings of this species of fish I consister such as very irrone as the Dead Inis & body being very different - the colors of this fish in the last on really splendid- The pretoral Jing as they are swimming appearing to hencellings of a beautiful mazarine transparent purply the tail, yell Jay little glass fish - the head appears somewhat of their and may one rapid in their motions knough the evalur - a Shoal of them about a mile from the thep were stiffing & jumping out of their clement and a That distance they seemed to have a. Hur back & white valvery belles the from their generality keeping wow to the Was had part of the ship cether on y a I. olde . They Jeem comewhat like the Carp of our Country but of a Da I tried to cotch a Dolphin but was unsucceptal by lasting a hook with a piece of fat hook altho some tried with a pearl hook - but we nome of us succeeded - They less us about noon - Duing the day the sun was remarkably for by a beautiful knoon light. of Home & thon endeard to me. The fire vide talk. Sportability of their being fact locked in the arms of morpheur. whilst be Suffering wales the affects of a Burning Jun. I this brought more pleasing thoughts to my mind - and in vistonary wanderings of the mind but one object to me The is unkind of me to famy think otherwise and my mind then wander it to assations & protestations she gave me the day of harting - I took the locket & her U- and in my fancy look it as the reality of one towhom I have sworm to be sacres. may Providence Blefs us -Sunday 15 Continuoner of fine weather, had of and dufted much to Lecusari. and dea so. for the greater part of theday. - the Sun was very hot as is would, the care but the themothetin was not quet so high as previous being only at 94 - preceived many buds Merginning over the wat, as I the the marker with us in England & have the doubt of ! The same species only bere they are somewhat layer - a nonce in the part of Copany semular budy in the streety but a die of cour their nests. I in the Evening the Sun went below the hour on all the I pland our imaginable for an Casters Vky. Orange. Dia who lake and light brown to a dark blue forming the chiege their commingled to gether formed The most splended that the artest could invent - at our with kept drifting into there from rent vitting that way and being completely becalined their as you were get were within a mule of the high Those of Creshes . - and processing that we might be drugted white further in we actually performed. Tibles - & anchors - in can of necessity altho the short here is were uguing 10 of 50 father of cable teley on almost get in a lon to ref -. The men were in reserve to our about towing the Ship of bruge altho light springing up about so we faged ahead olight and diel so for some time - but by the morning began drefting as find stones. from the innumerable quantities, of morgantary board bis from Copang in the first place & along the show sand the Tuyes of wet Keeps then with up if a trump thong one were to up wither little rain we should get rid of them - they have there is ther dyree that both my feel & anches are swollen very continue huming & burging about yrears. I slipt on click perforely to me on then in my birth and continued There tite he had I a clock when d. horris in - heard from the labin a spout of a furback close to yet it Monday 16 Their morning on going on DK.
